Sir:

This amendment is being filed in response to the outstanding Office Action, mailed January 11, 2001, in connection with the above application. Please enter the following amendments:

In the claims:

For the convenience of the Examiner, all claims being examined, whether or not amended, are presented below.

35. (Twice Amended) An isolated nucleic acid encoding a polypeptide comprising a *hedgehog* amino acid sequence which is at least 98 percent identical to a *hedgehog* protein of SEQ ID No:17, or an N-terminal fragment thereof having a molecular weight of about 19 kD, [thereof,] which *hedgehog* amino acid sequence or fragment thereof binds to a *patched* protein or regulates proliferation of testicular germ line cells.
